

AN EXHIBIT THAT TEACHES HOW TO PRESERVE HEALTH

Object Lessons Being Given
on Roof of Educational
Alliance Building.

OPEN - AIR LECTURES.

Show the Necessity for Keep-
ing Sleeping-Room Plain
and Bare.

The best sort of lesson in health culture is being given daily on the roof of the Educational Alliance Building. The prevention and cure of consumption is being lectured on and illustrated by a most interesting exhibition. Twenty-five hundred people attended the evening, men, women and children, and those who could not understand the lecturer's words, could not fail to be interested and impressed by the vivid pictures of the exhibition.

During the course of the lecture, the children are often quizzed to see how much they are understanding and it is an encouraging sign to note that youngsters of seven and eight years old already appreciate the value of fresh air and cleanliness, as a cure for this disease as well as most of the other ills that flesh is heir to.

The entire exhibition is going on to Jamestown for the summer, but will return to the city again in the autumn to continue the good work.

Lesson at a Glance.

Among the main features of the exhibit are two bedrooms, one dark, badly ventilated, with a large wooden bed covered with dingy bed clothes, a variety of spreading place for germs, and dirty draperies.

The other room of the same size is fitted up as a bedroom should be—no draperies, no rugs, an iron bedstead and as little furniture as possible. Nothing to collect dust. The importance of a well-ventilated, clean and almost empty sleeping room for every one, sick and well, is far too often overlooked.

The ordinary bedroom, as like as not, is a kind of no-man's-land or receptacle for anything that comes in the way. It is filled with dirt. These belong to people who lived and slept in dust-laden houses. A collection of household articles, such as a broom, a mop, a duster, and a brush, which are used in sweeping, dusting and mopping, are also shown. The feather duster and broom that whirled the dust around, and the mop that spread the dampness over it, which gathers up the dust and sends it flying.

Rules for Cleanliness.

As these rules are not only appropriate for those whose lungs are affected, but for people with healthy lungs, the exhibition is of inestimable value. It shows how little importance is placed upon the reality of vital things in life—clean, pure air in the home.

An important point made by the doctor who was lecturing was the necessity of a sanitary cupboard. In a land where cupboards are a necessary evil, they at least should be sanitary, cleaned daily and filled with water. The consumption germ does not die unless the cupboard is dry. As the doctor said, "No spitting, no consumption."

FALL ON RAZOR FATAL.
Henry Knickerbocker, aged sixty-two, of No. 36 West One Hundred and Thirty-first street, formerly an "E" engineer, was killed by vertigo while shaving yesterday and fell on the bed razor in hand, the keen blade gashing his throat. He died at Harlem Hospital. He had not been well for some days prior to his death.

Without music it is impossible for any one to obtain or to give a full measure of the happiness and usefulness of living. Nothing has done so much in the world to make music the property of all as the cunning genius and executive ability that produced the

Sterling Playerpiano

a piano that may be played by the musician in the usual way or by any one by inserting a music roll.

The Sterling Playerpiano is not a machine. It is no more mechanical than a regular piano, but is a sensitive instrument, subject to every mood and feeling of the person who is playing. The mechanism for music roll playing merely furnishes the supple fingers which strike the notes, and the expressive use of these fingers is entirely under the control of the operator. We make this piano in two sizes—one a Concert Grand, the other a Cabinet Grand. These pianos are unsurpassed and unequalled by any other instrument made. You can't get anything better if you paid a thousand dollars. The best proof of their value is the testimony of thousands of proud possessors. Ask any owner of a Sterling Playerpiano.

CONEY HAS A NEW GAME FOR "MARKS"

"Premium Pool" It Is Called,
but Only Cappers Can
Win a Premium.

Coincident with the transfer of Capt. Pinkerton from the turbulent Coney Island precinct to the quiet of the Fifth Avenue station in Brooklyn, a new game has been introduced at the Island. It is called "Premium Pool," and is one of the best efforts of the gentry who lie awake at nights thinking out new ones to separate the gullible from their coin.

The game looks easy, but there is not one chance in a million of winning a premium if the operator sells the game "right" for himself. On a pool table is a ball in the center of a small circle marked on the green cloth. On the ball is a coin. The game is to shoot another ball at the coin ball from a distance of about two feet and, if the coin falls outside the circle a prize is given. The prizes are watches, clocks and cheap jewelry. No one has won as yet, with the possible exception of a "capper" for whom the coin is slanted on the ball. It will fall inside the circle.

Inspector Harkins planned to raid these games some days ago, rumor said, but "something happened," and he didn't.

The new game is not one of chance, for there is no chance for the player. About a dozen are now in operation.

BIG CELEBRATION FOR IRISH GIRLS' HOME

Celtic Societies Working Hard
for Festival To-morrow
Night.

The Home for Irish Immigrant Girls, at No. 7 State street, which, under the care of the Rev. Father Henry, has been accomplishing a world of good, is to be the beneficiary of the summer festival in Sullivan's Harlem River Park. One Hundred and Twenty-seventh street and Second Avenue, to-morrow evening.

The work accomplished by this institution appeals with peculiar force to the Irish men and women of New York, who realize the pitfalls that are in the pathway of unprotected young girls arriving here from abroad. The Home meets and takes in charge such girls as such as they find at Ellis Island. It provides for them free of charge until they are able to find employment, or it secures employment for them if it is not possible to find it. All of this is provided for by voluntary subscriptions, which are not always large enough to enable the Home to meet its needs.

The festival to-morrow night is planned to meet the drain upon the Irish sympathies of the city. There will be plenty of attractions to appeal to the Irish sympathies. Irish dancing and Irish music by Irish pipers will be the feature of the evening. Seven valuable prizes will be awarded to those disposing of the largest number of tickets, and as a result of the competition for the prizes an enormous attendance is expected.

TELEPHONE DEAL FAILS.

No Sale Being Made, U. S. Company
Will Be Reorganized.

ROCHESTER, June 20.—Negotiations to sell the United States Independent Telephone Company by a syndicate of St. Louis and New York independent telephone men have ended. Edward F. DeLois and Edward F. DeLois of St. Louis had secured in New York men to aid them in buying the U. S. I. for \$2,000,000. The New York men were interested in the Long Act Light and Power Company, of which John C. Sheehan is the active head.

Sheehan made the St. Louis men believe he could get them space in the New York conduit for independent telephone wires on the strength of his company's Court of Appeals decision against the conduit monopoly. When Sheehan failed to make good the negotiations to sell the company outright fell through.

Charles C. Cutler, chairman of a committee of twenty-five U. S. I. investors, will call his committee together today to discuss the future of the company and to decide whether to recommend a plan of reorganization.

ALL DRUGGISTS

CURES

S.S.S. SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Poriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease.
